

TOOL 3300

The TOOL 3300 is suitable for building into machinery, in heat tunnels and other applications where moderate heating power & temperature control is required.

Benefits

- Compact, robust design
- Suitable for continuous use
- Adjustable air flow and temperature control
- Built-in safety features guard against overheating
- The heating element is protected against the interruption of the air supply
- Designed to be used with the our complete line of Leister blowers
- Precise delivery of hot air
- High process reliability
- Precise temperature control is possible by using our temperature controllers
- Compatible with a wide range of nozzles and fittings

Why Buy From Us

The TOOL 3300 is available only through STANMECH and its distributor network. These compact, robust tools are designed specifically for machine installation.

Technical Data – TOOL 3300

Voltage	V~	120, 230, 380-400, 440
Power consumption	W	2200, 3300, 4000-4400, 4000
Frequency	Hz	50 / 60
Max. temp.	°C	600
Min. air flow	l/min	200, 350, 350, 350
Size (L x W x H)	mm	225 x 90 x 85
Heater tube	mm	50 Ø
Weight	g	800
